SUMMARY

I'm a **Full Stack Developer** with **10+ months of hands-on experience** in building **responsive, high-performance** and **secure web applications**. I specialize in **React.js, Node.js, Express.js** and **MongoDB**, with a strong focus on **real-time features, component-driven UI design** and **scalable architecture**. I've contributed to **web apps** and **SaaS platforms** that improved **user engagement, accelerated data interactions**, and **strengthened multi-role access security**. I'm currently seeking opportunities in **Full Stack Development** where I can design and develop **user-centric, accessible** and **impactful digital products** that drive **business growth** and enhance **user experience**.

EDUCATION

Master of Computer Applications | M.E. Society's Institute of Management & Career Courses(IMCC) | 2023-2025

CGPA: 7.98/10

Bachelor of Computer Applications | S.S.B.E's Institute of Technology & Management | 2020-2023

CGPA: 7.9/10

WORK EXPERIENCE

Full Stack Developer | Advertisement Compliance Management System | 2025 | LionelAgency Innovations, India

- Architected a task management platform using React.js, Redux Toolkit, Node.js, Express.js, and MongoDB with Prisma ORM, implementing RBAC for 6+ roles and over 50 fine-grained permissions.
- Integrated real-time collaboration with WebSockets (Socket.io), enabling live task updates, instant notifications and multi-user file versioning with AWS S3, boosting coordination efficiency by 40%.
- Developed a comprehensive security framework with JWT authentication, CSRF protection, and session management, ensuring enterprise-grade security and seamless UX across devices.

Full Stack Developer | GPS Management System | Sep 2025 – Aug 2025 | Individual Project, India

- Built a full-stack tender management platform using React.js frontend and FastAPI backend with MongoDB, featuring AI-powered PDF document processing and smart candidate matching.
- Integrated OpenAI APIs for automated keyword extraction from Marathi tenders, achieving 85%+ accuracy and reducing manual screening time by 70%.
- Implemented secure JWT-based authentication and RBAC, file uploads, and deployed a scalable cloud architecture using AWS Lambda and Vercel for production performance.

Frontend Developer Intern | Herbs Magic | Dec 2024 – Feb 2025 | Pune, India

- Built responsive interfaces using React.js and Tailwind CSS, enhancing cross-device UI performance and boosting engagement by 30%.
- Integrated REST APIs and React Router, optimizing page transitions and real-time data flow for a 30% improvement in interaction speed.
- Participated in Agile sprints, leading daily standups and coordinating with cross-functional teams to ensure timely deliverables.

LANGUAGES, SKILLS AND CERTIFICATES

- **Languages:** English, Hindi, Marathi
- **Skills:** HTML, CSS, JavaScript, Python, React.js, Redux Toolkit, Tailwind CSS, Firebase, Node.js, Express.js, FastAPI, MongoDB, REST APIs, WebSockets (Socket.io), Git, VS Code, Responsive Design, Agile, UI Optimization, Real-Time Features, Accessibility.
- **Certifications:** Artificial Intelligence Fundamentals –IBM SkillsBuild, Fundamentals of Full Stack Development – ExcelR
